Molecular & Medical Pharmacology
University of California, Los Angeles

Goal:

To provide needs based education for physicians and health care providers to improve knowledge, competence and performance and enable the optimum provision of health care.

Learning Objectives:

- Provide patient care that is compassionate, appropriate, and effective for the treatment of health problems and the promotion of health
- Demonstrate application of scientific methodology to clinical situations
- Know and apply the basic sciences which are appropriate to their discipline
- Demonstrate effective communication skills with patients, families and professional associates
- To promote informed clinical decisions.
- To enable physicians to remain informed in multiple areas of medicine including development in fields other than their own.
- To foster responsible and balanced debate on conventional and controversial issues affecting health sciences.
- To forecast and discuss important issues and trends in health sciences.
- To recognize that in addition to these specific objectives the University has a social responsibility to improve the total human condition and to promote research interest in and awareness of basic and clinical science research.

The University of California, San Diego School of Medicine is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

AMA: The University of California, San Diego School of Medicine designates this live activity for a maximum of 1.0 *AMA PRA Category 1 Credits™*. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

APA: The University of California, San Diego School of Medicine, Department of Psychiatry is approved by the American Psychological Association to sponsor continuing education for psychologists.
